EDUCATION

University of Colorado Boulder, Department of Engineering – 3.4 GPA

Class of May 2027

Bachelor of Science in Creative Technology and Design with a minor in Computer Science

Notable Courses: Data Structures, Computer Systems, Discrete Structures, AI Tooling in Software Development, How to Hack

Additional Languages: Spanish

TECHNICAL SKILLS

- Programming Languages: C++, HTML, CSS, JavaScript, Python
- Software Tools: Microsoft Office Suite (Excel, Word, PowerPoint)
- Design & Modeling: Adobe Creative Suite (Photoshop, Illustrator, InDesign), SketchUp
- 3D Printing, Laser Cutting, Woodshop Tools & Fabrication, Circuit Design & Sensor Integration

RESEARCH, PROGRAMMING, UX/UI EXPERIENCE

University of Colorado Boulder – Research

Summer 2025

- Assisted Professor Bobby Hodgkinson's research on the integration of generative AI in higher education, focusing on opportunities and challenges in academic adoption.
- Contributed to the design and layout of an AI powered coding interview website by creating a clearer user interface and enhancing navigation for students and faculty.
- Proposed and developed new feature ideas to improve functionality, student engagement, and resource accessibility.

Virtual Reality - 360° World

Fall 2024

- Created A-Frame VR environment with 3D models, textures, and custom sky image.
- Edited and integrated an equirectangular sky image and two 3D models with added textures, enhancing realism and aesthetics.
- Built the virtual environment in A-Frame, using Glitch for real-time coding, debugging, and hosting to support live deployment.

Personal Portfolio Website

Fall 2024

- Designed and built a responsive single-page portfolio using HTML, CSS, JavaScript, and JSON.
- Developed a clean, dark-themed UI with smooth navigation and animated skill visualizations.
- Implemented individual GitHub pages for each project, providing access to related files, code, and additional resources.

File Simulator

Fall 2024

- Developed an interactive file system simulator that mimics real-world file operations, enhancing command-line proficiency.
- Implemented core file management commands and directory navigation commands for user-system interaction.
- Integrated advanced functionalities, including file searching and metadata display with stat, improving usability and realism..

WORK EXPERIENCE

LifeTime Fitness

Summer 2024

Youth Camp Counselor

- Led groups of campers (ages 3-12) in activities like rock climbing, swimming, and arts & crafts while ensuring safety, fostering teamwork, and creating an engaging, inclusive environment.

Fit Kids Gymnastics

May 2022 – August 2023

Coach & Hospitality/Office Administrator

- Taught gymnastics fundamentals through structured, skills-based classes while ensuring a safe and supportive environment.
- Improved scheduling and students progress tracking in Excel while managing logistics and communicating with clients and staff.

LEADERSHIP AND ACTIVITIES

- Girls in STEM Club – Art/Social Media Board Member
- Indivisible Arts Program, Resin Art Gallery – Volunteer
- Manhattan Beach Youth Council – Member
- AYSO Mentorship Program – Mentor
